TECHNICAL SKILLS

Programming languages: C programming , Python(basics)

PROJECTS

1) REAL TIME CLOCK USING ARDUINO AND DMD:

This project demonstrates the use of electronics and embedded system with clock.

Dot-matrix display are more commonly referred to as free running text is often found in shops as a means of advertising their products, it is practical and flexible in its use that encourage business actors to use it as advertising device. Now the use of dot matrix display has spread, not just as advertiser media only, as well as prayer schedules, warning boards, queuing machines etc.

Here, we will give a post about how I made a clock using p10 matrix display and DS3231 RTC using Arduino.

HOBBIES

- Reading books.
- Sports

EXTRA CURRICULAR ACTIVITIES:

- I have participated in cultural fest as co-ordinator.

POSITIVE TRAITS:

- Enthusiastic
- Optimistic
- Strong believer of group dynamics
- Shouldering up the responsibilities
